

Report to SRA Committee meeting 15 March 2023 (update since last report 18 January 2023)

The following schedule indicates status of planning applications, with new information highlighted yellow, and items for committee attention in green. Closed applications are shown shaded grey and will be removed from future reports.

The main current concerns are (updates shown by revision marks on committee draft only):

- **22/01485/OUTEIA Whitehouse Farm phase 2.**
 The SRA committee continues to monitor this, with a focus on the southern access route (SAR) and the proposal to make a country park in the area NE of the site. For an overview see the 'Indicative Landscape Plan' along with 'the Design & Access Statement part 1 of 4. National Highways now have “No Objection” subject to certain conditions including that the Local Planning Authority aims to achieve Carbon Net Zero by 2050 by support (enforce?) for a modal shift from car travel... Determination target now 3 April. Extensive changes were submitted in March 2023, including minor improvements to the proposed “Northern Country Park”. The SRA committee joins the Chichester Society in urging CDC to make this a wild-flower meadow with management integrated with Brandy Hole Copse.
- **Local Plan**
 The Chichester Local Plan 2021 - 2039: Proposed Submission was published for consultation until 17 March 2023 with proposed housing numbers reduced from 638 dwellings per year to 575 – see <https://chichester.oc2.uk/document/45> .
 The Chichester Society has published a useful summary in a 14 March post on their [website](#) , noting that achievement of “Regulation 19” status now gives it weight in planning appeals (**reproduce in box for Spring Newsletter**).
- **Neighbourhood Plan**
 In February SRA committee members contributed at a “Chichester Community Collaboration Forum” workshop with a presentation on suggested initiatives for the Neighbourhood Plan – including aspirations for the wider city as well as Summersdale.
